SKILLS

- HTML
- CSS
- JavaScript
- CPP (DSA)
- MYSQL
- GSAP
- CMD (terminal based)
- python

DIPU KUMAR

FRONT END WEB DEVELOPER

PROFESSIONAL SUMMARY

My name is Dipu Kumar, and I have a strong foundation in web development and programming. Proficient in HTML, CSS, and JavaScript, I can design and create dynamic and visually appealing websites. With a solid grasp of C++, I am also adept at software development, able to write efficient and scalable code. Additionally, my expertise extends to database management, where I can design and optimize databases to store and retrieve data effectively. I am passionate about technology and constantly seek to enhance my skills to tackle new challenges in the ever-evolving field of programming.

EXPERIENCE

- December 2023 - February 2024

Library website

Member / India, Bhopal

Using cutting-edge technologies such as HTML, CSS, and JavaScript, we've crafted an intuitive and visually appealing interface that makes navigating our library catalog a breeze. Users can easily search for books, journals, and other materials using our advanced search feature, which leverages JavaScript to deliver real-time results as they type. But we didn't stop there. We understand the importance of personalization, so we've implemented features like user accounts and bookmarks using JavaScript to enhance the user experience. Users can create accounts to manage their borrowing history, renew items, and save their favorite titles for future reference.

- December 2023 - February 2024

Portfoli Website

owner / India, Bhopal

where I showcase my skills and the latest technologies I've learned. I'm excited to present a platform that reflects my journey in web development and demonstrates my proficiency in HTML, CSS, and JavaScript. I'm excited to present a platform that reflects my journey in web development and demonstrates my proficiency in HTML, CSS, and JavaScript. <https://portfolio.dipu.tech/>
